**Min största styrka/My biggest strenght:**

I would say that my biggest strengths are that I am good in stressful situations, positive, driven and most importantly for this ämbete I am a morning person furthermore a fikaexpert who makes the best chocolate chip cookies.

**Min största svaghet/My greatest weakness:**

For this ämbete, I would assume that it is my lack of imagination that could put limits to the variaty in what we have to offer. I imagine that you could have some fun themes to still get variety. Also have a tendency to eat up a little too much of the cakebatter.

**Varför jag har sökt det här ämbetet/Why I am running for this post:**

I really enjoyed doing lördagsfika this semester and I wanted to continue in the same path.

**Något jag vill åstadkomma med mitt ämbete om jag blir vald/Something I want to achieve if I am elected**

Want to contribute something fun that students can do on weekends as they sit and study, socialize with friends, etc. I would like to arrange some fun theme brunches to create variaty and test new concepts.
