Self employed small business designer
Federal Coordinator, the Moderate Youth League 2009 - 2013
Digital Expert, Samhall AB 2016 - Present
Had a very popular birthday party in 2015

Something I want to accomplish if I am elected:

This autumn is the last semester I have the opportunity to take a new responsibility at the best of nations. Now, when I enter the last chapter of my time at the nation, I would like to give other students the same kind of memories that I have received at Södermanland Nerike nation. I hope that You will give me Your support in this.

Gasques and balls have been around for so long. It has many proud traditions and a future that is not built overnight - or by only a couple of klubbmästare. I want to contribute to the historical context and the preservation of the essence of our cultural tradition heritage. With that said, it is not *business as usual*. In my opinion, a klubbmästares most important task is to, through highlighting other fantastic people, piece the gasque or ball together and enable visitors to have a good evening. It requires that the klubbmästare knows the nation and the traditions well. But it also requires that we take good care of, and understand, the staff and all others who pitch in. The spex, the choir and HB amongst others. I strongly believe that my great organizational ability and wide knowledge of the nation can make this happen. I have extensive experience from all parts behind the scenes at the partys at Snerikes. Both during gasques, in external events, and arrangements that I have planned and carried out.

The best of nations deserve the best of gasques and balls.
